Huerta Will Have Nothing to Say About Choice for Provisional President-Peace Envoys Had Almost Given Up Hope of Peaceful Settlement When Huerta's Agents Conceded Point to Americans—Correspondence Between Carranza and Plenipotentiaries Made Public-Constitutionalists Unwilling to Grant Cessation of Hostilities—Note From Carranza Says He Will Send Representatives to Niagara Falls Peace Meeting.

Niagara Palls, Ont., June 11 .- An povercome by waiving all discussion types and confining the actual consideration of nam important point in the plans for the pacification of Mexico was gained by the United States tonight through the conciliatory spirit displayed by the Mexican delegation. What had been a stumbling block for several days was passed in safety.

In a full conference of the mediators and the delegates of both countries it was agreed that the transfer of authority from the present administration to the new provisional government should be accomplished in some other way than by General Huerta's appointment of a minister of foreign affairs, who would succeed to the provisional presidency. This method, provided for in the Mexican constitution, will be abandoned because the United States insisted that to assent to it would be tantamount to a recognition of Gen-eral Huerta's right to exercise consti-tutional functions.

#### Mediators Argued Vehemently.

On this point the mediation confer ences had been wrestling for three weeks, and for the past three days continuance of the conference has threatened. The mediators argued ve-hemently from the Mexican viewpoint, but the American delegates were unnent. Somewhat piqued at General Carranza's delay in answering their mediators would close the entire pro-ceedings unless the United States yielded.

As the Americans began their dis-cussion with the mediators the latter contended again that the method of transfer would not be construed as recognition, as all the world would know that the new provisional presi-dent would be chosen at the mediation conference and that to give General Huerta permission to appoint him was merely an empty form designed to ap-

# United States Could Not Consistently

The Americans reiterated that the constitutionalists would not accept such a method and the United States could not yield consistently with its own policy. Finally when matters seemed at a breaking point, Luis Elone of the Mexican delegates entered the conference room, and immediately a spirit of compromise was noticeable. Observing it, the Americans suggested that the other Mexicans join in the conference, and Emilio Rabasa and Augustin Rodriguez joined It was not a full confer ence of the formal kind with which the proceedings here were inaugurated, but an impromptu get-together talk. In s surprisingly brief time the Americans found they had made more headway with the Mexicans directly than they had previously by working through the mediators.

# American Delegates Smiling and

The American delegates explained anew the embarrassing position in which the United States found itself with respect to the transfer of authority. The Mexican delegates appre-ciated these difficulties and, though anxious to follow the constitutional form, said they would not frustrate the of the proposed proceedings on a technicality and that he may a yielded. Tonight's conference lasted more than two hours and was devoted solyly to a discussion of the first clause in the peace plan of the mediators. Names for provisional president were not mentioned, but it is expected that at tomorrow's conference a beginning will be made in this direction. Another almost irreconciliable difference of epinion exists between the two sets of delegates on the type of man for the provisional presidency, the Mexicans arguing for a "neutral," while the Americans want an out and out constitutionalist in order to assure acceptance of the peace plan by the constitutionalist in order to assure acceptance of the peace plan by the constitutionalists. # CORRESPONDENCE BETWEEN

MEDIATORS AND CARRANZA Rebel Chieftain Unwilling to Grant Cessation of Hostilities.

Niagara Falls, Ont., June 11 .- The first of three communications that comprise the correspondence is the telegram sent by the mediators on May 3 to General Carranza, then at Chihuahua, withdrawing their invita-tion to the constitutionalist chief to send delegates, because of his refusal to declare an armistice. It follows:

#### First Note to Carranza,

"We have received your courteous telegraphic message of yesterday in which you inform us that you deem it inadvisable for the constitutionalist cause to suspend hostilities against General Huerta because such suspen-sion would benefit the latter only and in which you state that the interna-tional conflict between Mexico and the United States, for the resolution of which you accepted our good of-fices, is independent of the internal

## Protest from Rebel Chieftain.

No reply to this telegram was made by General Carranza, but on May 28 he protested through Rafael Zubaran, his Washington representative, against the Mexican conflict being made the subject of negotiations in the absence of representatives of the constitutionalists. This letter, delivered to the mediators at Niagara Falls, follows:
"The undersigned, the special representative of the first chief of the constitutionalist government of Mex-ico, Venustiano Carranza, following express instructions, has the honor to communicate to your excellency, the ambassador of Brazil, and your excellencies, the ministers of Chile and Argentina, the following:

Senator Nerris Introduced Amendmen to Submit Dispute With Great Britain to Arbitration, but Later Withdrew it-Reserves all Rights Under Hay-Paunceforte Treaty.

Washington, June 11.—Repeal of Panama canal tolls exemption for American coastwise shipping passed the senate tonight by a vote of 50 to 35. The measure now goes back to the house, which is expected to accept the immons-Norris amendment specific ally reserving all rights the United States may have under the Hay-Pauncefote treaty.

Pauncefote treaty.

Senator Norris sought to change the bill by adding a new amendment providing that the dispute with Great Britain over tolls should be submitted to arbitration, but after a discussion in which several senators deplored the appearance of such a proposal at this time he withdrew it. This action, however, does not affect the arbitration resolution drawn by Senator Sutherland and approved by the foreign relations committee, which is expected to be presented to the senate after the tolls bill is passed.

The passage of the bill after a bitter struggle that has lasted for several months was regarded tonight as another victory for President Wilson. Although 13 republicans came to the aid of the 37 democrats who voted for the bill on final passage, the president initiated the movement in his party for repeal, and it was behind him that many of the democrats who voted "aye" lined up on the last test.

There has been no certain promise from the White House that the president will sign the bill with its qualifying amendment, but there has been no

London, June 11.—The militant suf-fragettes staged one of the most dramatic acts of their campaign this afternoon when they exploded a bomb in Westminster Abbey at the very moment that the Right Hon. Reginald McKenna, secretary of state for home agairs, was delivering an optimistic speech in the house of commons near-by regarding the government's method of dealing with "the wild women." The bomb was placed beside the famous Coronation chair in Edward the Confessor's chapel. The detonation was heard for many blocks and a crowd quickly filled the square in front of the abbey. But the police were in immediate possession and closed all the doors. A statement issued by Scotland Yard gives the facts in a most conservative form.

"At 5 o'clock," says the statement. "a small bomb was exploded in immediate proximity to the Coronation chair. It is supposed that some member of a large party of sightseers lagged behind the rest and deposited the bomb when the others had left the chapel. Fortunately the damage done was slight. A portion of the carved wood at the back of the chair was blown off and some of the stone carving of the screen of the great alter was damaged, apparently by some iron nuts contained in the bomb.

Henry Burne, democratic candidate for member of the city commission of Bomb Made of Thin Metal, "The bomb itself was made of thin metal, nickel plated; it was exploded by a fuse. A woman's feather boa, a guide book and a small black silk bag were found on a chair nearby. No material damage has been done, as happily the pieces blown off can be put together again.
